Shaping the future of Intralogistics in Saudi Arabia

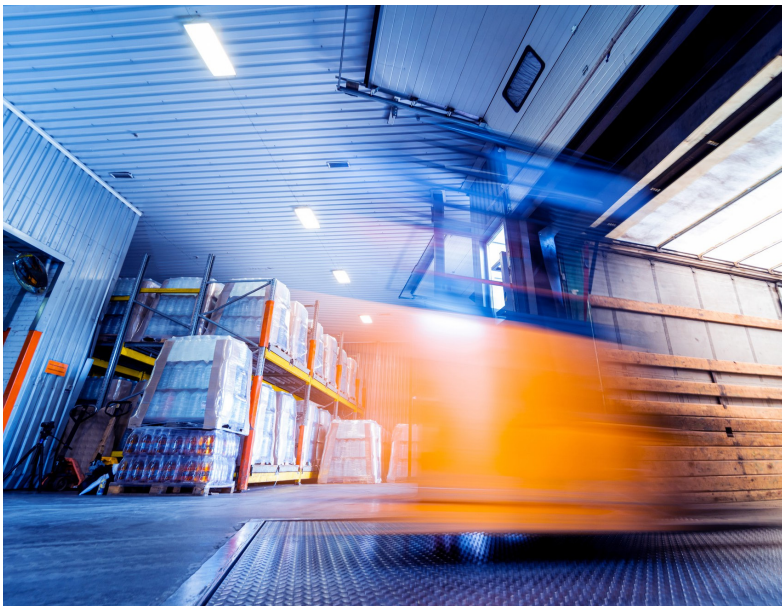

Shaping the future of Intralogistics in Saudi Arabia

Saudi Arabia is poised for growth in the region with a massive **\$15.31 billion investment** in creating an extensive regional logistics network that includes new airports, freight stations, and 2,000 kilometers of railway lines for both freight and passenger transport.

With its strategic location and robust economy, the country is primed to become the premier export gateway for Africa, Asia, and Europe, positioning itself as a **central hub in the logistics industry** for years to come.

The **Saudi Warehousing & Logistics Expo**, unites the **entire intralogistics industry in one place**, showcasing the full spectrum of industry expertise and innovation. As trade continues to globalize and Saudi Arabia strives to be at the forefront of industry performance, there has never been a better time to be a part of the event.

Why Saudi Arabia?

With Government's massive growth plans, rising demand, and rapid technological advancements, the intralogistics industry in Saudi Arabia is heading toward unprecedented expansion.

Logistics Service Zones worth nearly \$7.7 billion

The Kingdom has sanctioned the construction of 19 logistic services zones.

(Source: Zawya)

Investments worth \$15.31 billion

The government is focused on transforming the logistics industry landscape of the country by investing huge amounts in the next 10 years.

(Source: Zawya)

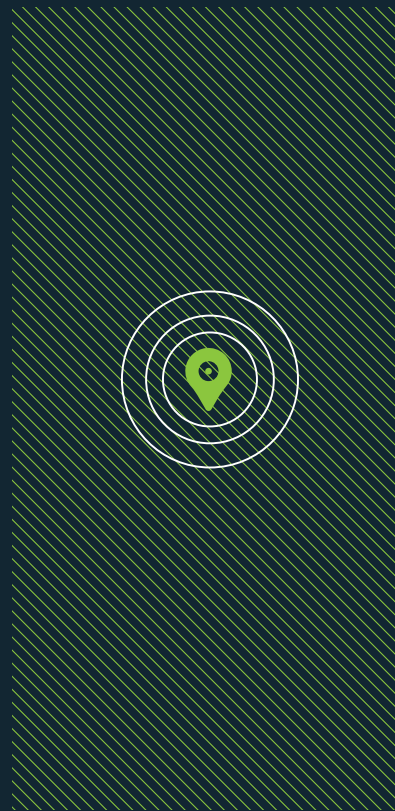

10% of Saudi's GDP by 2030

Logistics is expected to contribute upwards of 10% of Saudi's GDP by 2030.
